8TH NATIONAL CONCLAVE ON CYBER DEFENCE

SAJAG 2025
(ONLINE)

THEME

DEEPFAKE AI MANIPULATION AND CYBER SECURITY: THE NEW AGE OF DECEPTION

📅 03 MAY 2025

About the Conclave

The SAJAG2025, Central India's top National Cyber Security conclave, organized by the University, is set to host its eighth edition. Since its launch in 2018, the event has become a key platform for experts, researchers, policymakers, and industry leaders to discuss Cyber Security issues, exchange knowledge, and explore new ways to strengthen digital security.

The theme of the 8th National Conclave SAJAG2025 is "DeepFake AI Manipulation and Cyber Security: The New Age of Deception". One of the most alarming developments in AI-driven technology is DeepFake manipulation, where AI-generated media images, videos, and audio can be altered to create hyper realistic yet false content. This poses a severe threat to national security, political integrity, business reputation, and individual privacy. To address this critical issue, SAJAG2025 has been organized as a National Conclave to foster awareness, discussions, and solutions around deepfake AI and Cyber Security threats.

The conclave aims to bring together prominent stakeholders, including Cyber Security Experts, Digital Forensics Analysts, Law Enforcement Agencies, Government Officials, Policy Makers, Researchers, Academicians, Students, Media and Journalism Professionals, Social Media Platforms, IT and Security Professionals, Legal and Compliance Experts, Corporate Leaders, Financial Institutions, Content Creators, Public Relations Specialists, Ethical Hackers, Human Rights Activists, and the General Public. These sessions will focus on critical aspects of cyber resilience, such as risk management, incident response, threat intelligence, regulatory compliance, and strategies for combating AI-driven digital deception. This event will provide participants with key insights and cutting-edge tools to navigate the complex Cyber Security landscape, addressing the growing challenges of DeepFake AI manipulation and cyber threats. By fostering collaboration and knowledge-sharing, attendees learn about the latest strategies, cutting-edge technologies, and best practices for detecting, preventing, and mitigating AI-driven cyber threats.
